

# Pro Carbon Arm Barrier

Pro Carbon Arm Barrier is designed as an urban furniture with a modest Scandinavian design approach. It is not only functional security equipment, but also an object that will be indispensable for our cities by combining its superior electro-mechanical infrastructure with a confident, reassuring, modest design approach.

## Technical Features

■ Arm Length	4m (Max)
■ Operation Time	3 seconds
■ Daily Max. Operation Cycle	5000 Cycle
■ Operation Voltage	1ph 220V (±10) (AC) 50/60 Hz
■ Motor Voltage	24 VDC
■ Motor Power	100 W
■ Operation Temperature	-25°C/+ 50°C
■ Barrier Weight	80 kg
■ Safety Class	IP 55
■ Humidity Ratio	%85 or less
■ Options	Photocell, Traffic Light, LED Light Under Arm, Loop Detector
■ Compatibility with Access control systems	System operates with Card,Compatible to integrate any access control system

## Technical Specification
